

WOODY AND HERBACEOUS WEED CONTROL

LOCALISED SPOT APPLICATION WEEDS CONTROLLED, RATES OF USE AND TIMING OF APPLICATION

Weeds	Rate of use; ml of Speedline Pro / 10 litres of water	Optimum timing of application
Bramble	150	Up to 1 metre high
Broom	200	Up to 1 metre high
Buddleia	200	Up to 1 metre high
Gorse	150	Up to 1 metre high
Japanese Knotweed	200	1 metre high, with good foliage cover

For localised treatment using a suitable lance from a knapsack or tractor mounted sprayer, use a solution of 150-200 ml of SPEEDLINE PRO depending on the target weed, per 10 litres of water. Woody weeds should be thoroughly wetted with the spray solution, but spraying until "run-off" will decrease activity. The use of flood jets is recommended to prevent drift. Care should be taken to avoid local overdosing. Woody weeds should not exceed 1 metre in height.

Do not use between 1st September and 1st March.

For applications made between 1st March and 1st June, 1 application may be made per calendar year.

For applications made between 1st June and 1st August, only 1 application may be made in a 2 year period.

For applications made between 1st August and 31st August, only 1 application may be made in a 3 year period.

Do not apply spot applications to more than 20% of the area.

Timing of Application

SPEEDLINE PRO should be applied between March and the end of August. The timing of application of SPEEDLINE PRO is crucial and for good results SPEEDLINE PRO must be applied to actively growing weeds.

Mixing

Fill the spray tank half full with water and add the required amount of SPEEDLINE PRO mixing well. Top up with water and continue agitation until the spray tank is full. Maintain agitation while spraying. Use the spray immediately.

Spray Quality

Apply as a MEDIUM quality spray as defined by the BCPC system.

COMPANY ADVISORY INFORMATION (UK only)

The following information does not form part of the product label under the UK plant protection products regulations and provides additional advice on product use at the discretion of Corteva Agriscience.

IMPORTANT INFORMATION
FOR USE ONLY AS A PROFESSIONAL HERBICIDE

Crops / Situations: Amenity grassland, non-crop areas (IRL only)
Maximum Individual Dose: 20 ml product/litre of water
Maximum Number of Treatments: One (See Other Specific Restrictions)

Other Specific Restrictions
Do not use between 1st September and 1st March.
For applications made between 1st March and 31st May, 1 application may be made per calendar year.
For applications made between 1st June and 31st July, only 1 application may be made in a 2 year period.
For applications made between 1st August and 31st August, only 1 application may be made in a 3 year period.
DO NOT USE ON LAND that will be grazed by livestock.
DO NOT USE on airfields.
DO NOT USE ON LAND where the vegetation will be cut for animal feed, fodder or bedding nor for composting or mulching within one calendar year of treatment.
Do not apply spot applications to more than 20% of the area.
DO NOT USE ON LAND within one year of sowing seed.
Extreme care must be taken to avoid drift onto non-crop plants outside of the target area.
Users must have received adequate instruction, training and guidance in the safe use of the product and must take all reasonable precautions to protect the health of human beings, creatures and plants and safeguard the environment.

Read the label before use. Using this product in a manner that is inconsistent with the label may be an offence. Follow the Code of Practice for Using Plant Protection Products.

SAFETY INFORMATION
SPEEDLINE PRO[®]
UFI: AN65-0000-M00C-N0HC

WARNING
Causes serious eye irritation
May cause damage to kidneys through prolonged or repeated exposure
Very toxic to aquatic life with long lasting effects
Wash hands thoroughly after handling.
Wear protective gloves / protective clothing / eye protection / face protection.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing.
If eye irritation persists: get medical advice / attention.
IF ON SKIN: Wash with soap and water.
Collect spillage.
Contains Triclopyr; May produce an allergic reaction.
Dispose of contents / container to a licensed hazardous waste disposal contractor or collection site except for triple rinsed empty containers which can be disposed of as non-hazardous waste.

To avoid risks to human health and the environment, comply with the instructions for use.

SAFETY PRECAUTIONS

Operator protection:
Engineering control of operator exposure must be used where reasonably practicable in addition to the following personal protective equipment:
WEAR SUITABLE PROTECTIVE GLOVES AND FACE PROTECTION (FACESHIELD) when handling the concentrate.
WEAR SUITABLE PROTECTIVE CLOTHING (COVERALLS) AND SUITABLE PROTECTIVE GLOVES when applying by hand-held equipment.
However, engineering controls may replace personal protective equipment if a COSHH assessment shows they provide an equal or higher standard of protection.(UK only)
WHEN USING DO NOT EAT, DRINK OR SMOKE.
WASH CONCENTRATE from skin or eyes immediately.

Consumer protection:
DO NOT USE ON FOOD CROPS.

Environmental protection:
Extreme care must be taken to avoid spray drift onto non-crop plants outside of the target area.
DO NOT CONTAMINATE WATER with the product or its container. (Do not clean application equipment near surface water / Avoid contamination via drains from farmyards and roads.)

Storage and disposal:
KEEP IN ORIGINAL CONTAINER, tightly closed, in a safe place.
RINSE CONTAINER THOROUGHLY by using an integrated pressure rinsing device or manually rinsing three times. Add washings to sprayer at time of filling and dispose of safely.

This label is compliant with the CPA Voluntary Initiative Guidance (UK only).

DIRECTIONS FOR USE

IMPORTANT: This information is approved as part of the Product Label. All instructions within this section must be read carefully in order to obtain safe and successful use of this product.

WARNINGS
Take extreme care to avoid drift onto susceptible crops, non-target plants or waterways. Do not apply directly to, or allow spray drift to come into contact with agricultural or horticultural crops, amenity plantings, gardens, ponds, lakes or watercourses.

SENSITIVE PLANTS may be harmed by residues of SPEEDLINE PRO in soil and treated vegetation. Do not apply SPEEDLINE PRO on or adjacent to soil which may be used as garden top-soil, potting soil, etc. or to grass which may be cut and used as mulch or for compost for horticultural or garden crops. Do not use cuttings from treated grass for mulching or composting.

Cut treated grass must not be removed from site, or used for animal feed, animal bedding, composting or mulching. Treated grass must not be used for grazing.

On level ground there is negligible lateral movement but do not apply SPEEDLINE PRO around desirable trees or shrubs, do not spray under the canopy and 1 metre at least from the trunk of desirable trees or shrubs. Care should be taken on slopes to prevent leaching into areas where desirable shrubs, etc are present.

NOTES
Grass and weeds must be actively growing to ensure good weed control and minimal check to the grass. Therefore do not spray in drought, hot or very cold weather conditions. Do not use on grass less than one year old.

To allow maximum translocation to the roots do not cut grass for 7 days after application.
Clover will be killed by application of SPEEDLINE PRO.
Wash equipment thoroughly with water and detergent immediately after use.
