

BRASSICA

PEST TIMING CALENDAR

Corteva Agriscience™ offers an outstanding lineup of customer-focused products for broccoli, cauliflower and cabbage growers that fit well into an Integrated Pest Management (IPM) program.

Delegate™

Jemvelva™ active

INSECTICIDE

Delegate™ insecticide with Jemvelva™ active (spinetoram) is a naturally-derived product that is fast-acting against cabbage looper, diamondback moth and imported cabbage worm. Its unique mode of action provides a strong rotational partner in IPM programs.

Entrust™

Qalcova™ active

INSECTICIDE

Entrust™ insecticide with Qalcova™ active (spinosad) is a proven natural insecticide for organic growers. Entrust provides excellent activity on cabbage looper, diamondback moth and imported cabbage worm. It is also registered for use as a drench application for cabbage maggot control in brassica transplants.

Closer™

Isoclast™ active

INSECTICIDE

Closer™ insecticide with Isoclast™ active is ideal for controlling aphids in your brassica vegetable crops. It moves quickly through the plant to control pests through both contact and ingestion.

Success™

Qalcova™ active

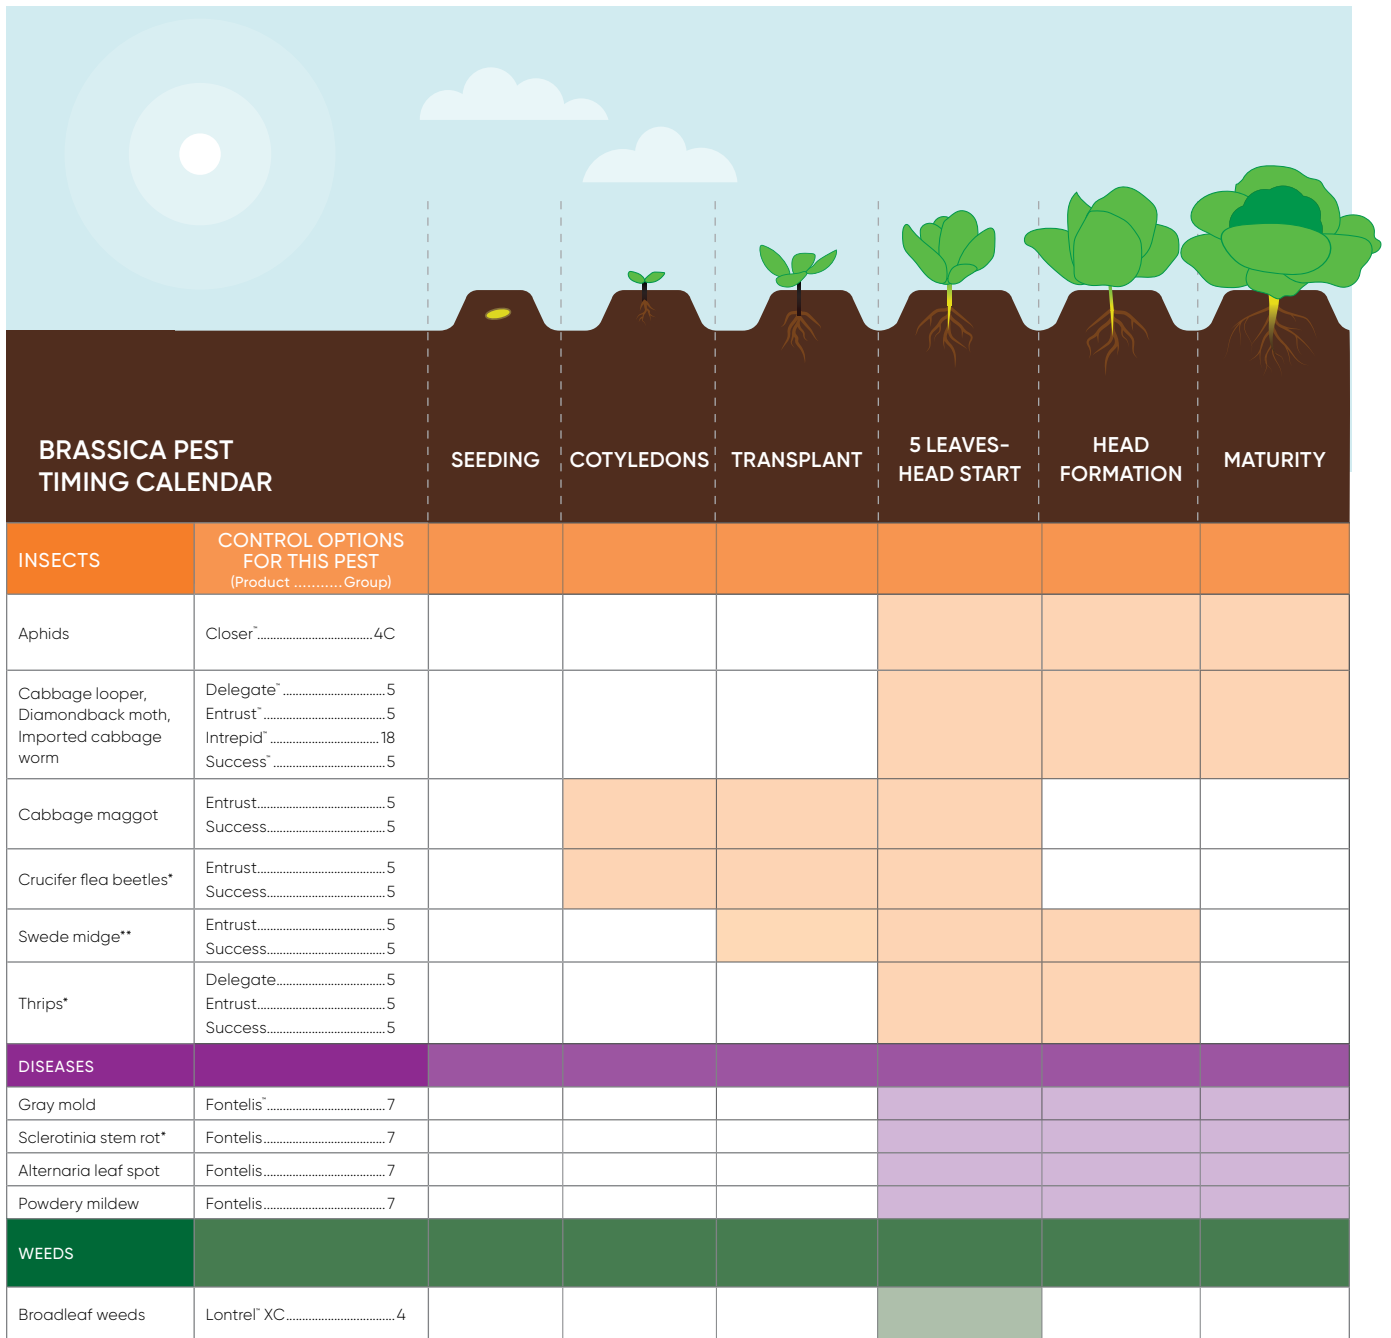

INSECTICIDE

Success™ insecticide with Qalcova™ active (spinosad) is a proven insecticide of natural origin that has helped generations of farmers grow high quality crops. Success is highly effective against a range of pests including cabbage looper, diamondback moth and imported cabbage worm. It is also registered for use to control cabbage maggot as a drench application in brassica transplants.

PRE-HARVEST INTERVALS IN BRASSICA CROPS

(Refer to each product label for crop specific pre-harvest intervals)

Closer™ insecticide	3 days	Delegate™ insecticide	1 day	Entrust™ insecticide	3 days
Intrepid™ insecticide	1 day	Success™ insecticide	3 days	Fontelis™ fungicide	0 days
		Lontrel™ XC herbicide	30 days		

* Suppression

** Reduction in damage
