This reference guide is not intended as a substitute for the product label for the product(s) referenced herein. Product labels for the above product(s) contain important precautions, directions for use, and product warranty and liability limitations, which must be read before using the product(s). Applicators must be in possession of the product label(s) at the time of application. Always read and follow all label direction and precautions for use when using any pesticide alone or in tank-mix combinations.

Not all products are registered for sale or use in all states or counties. Contact your state pesticide regulatory agency to determine if a product is registered for sale or use in your state. Enable® is not labeled for use on pecans in New Mexico. State restrictions apply on the sale and use of Enable® 2F fungicide and Intrepid 2F® insecticide. Consult the label before purchase or use for full details. In Florida, Embed® Extra is labeled under FIFRA 24© for Selective Control or Suppression of Emerged Broadleaf Weeds in Citrus Grove Floors. Consult the Supplemental Labeling for the specific restrictions in your area or call 800-258-3033 for more information. Always read and follow label directions. ©2022 Corteva.
