BETTER SEEDLING PROTECTION AGAINST THE NUMBER-ONE EARLY CORN DISEASE - PYTHIUM

Lumiante[™] fungicide seed treatment provides enhanced protection against **Pythium**. Combine Lumiante[™] fungicide seed treatment and Metalaxyl for a one-two punch with two different modes of action for improved and long-lasting seedling protection.

Lumiante[™] fungicide seed treatment delivered a **2.9 bu/A average yield advantage** in research trials when compared to standard IST/FST seed treatments.¹

Active Ingredient: **Ethaboxam**

Key Benefits:

- · Enhanced protection against Pythium
- Control of Metalaxyl-resistant species provides ideal fit for integrated disease management
- Effective at low application rates
- Balanced translocation with better seed, root and mesocotyl protection

Pythium

¹Data is based on replicated research trials from 2013-2015 at 50 locations comparing standard IST/FST seed treatment recipe with Lumiante™ fungicide seed treatment to recipe without.
