

Burndown application

Enlist® herbicides are available for spring burndown and pre-plant applications.

Plant-back restrictions

	Crops WITH the Enlist® trait	Crops WITHOUT the Enlist trait
Cotton	No plant-back restriction	Applications must be made no less than 30 days prior to planting
Corn	No plant-back restriction	Enlist herbicides: Recommended to apply 7–14 days before planting corn to control emerged weeds.
Soybean	No plant-back restriction	Enlist Duo: Applications must be made no less than 14 days prior to planting. Enlist One: Applications must be made 7–14 days before planting soybeans, dependent on rate.
Other*	–	Enlist One: DO NOT apply less than 30 days prior to planting. (see “Uses” section of label)

*Crops not specifically listed within the Enlist One label

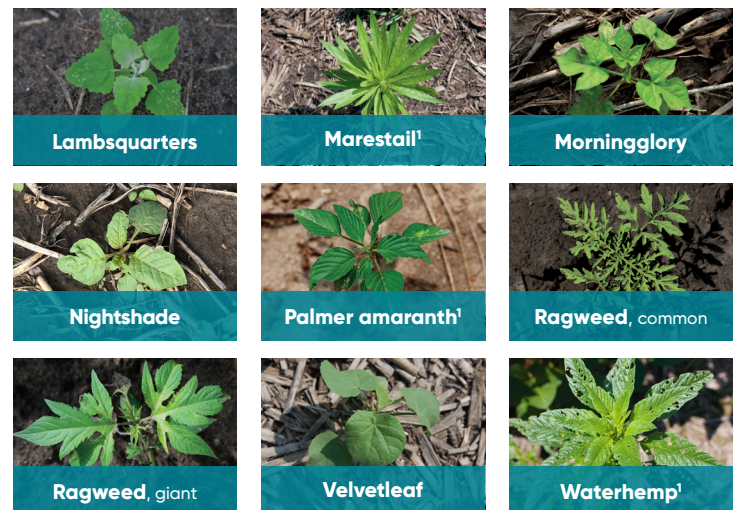

Preferred burndown application rates:

Enlist Duo® herbicide	4.75 pt/A	Enlist One® herbicide	2 pt/A
---------------------------------	-----------	---------------------------------	--------

The effectiveness you expect

Enlist herbicides eliminate tough yield-robbing broadleaf weeds – including resistant and hard-to-control species.

Apply with confidence to take down tough weeds, including:

¹ May require a broader management plan including timely application and use of a soil residual herbicide.

Tank-mix products

For all uses, including burndown, Enlist herbicides may only be tank-mixed with products that are listed on **EnlistTankMix.com**. Listed products include additional herbicides, AMS products, and water conditioners.

This reference guide is not intended as a substitute for the product label for the product(s) referenced herein. Product labels for the above product(s) contain important precautions, directions for use, and product warranty and liability limitations, which must be read before using the product(s). Applicators must be in possession of the product label(s) at the time of application. Always read and follow all label direction and precautions for use when using any pesticide alone or in tank-mix combinations.

Not all products are registered for sale or use in all states or countries. Contact your state pesticide regulatory agency to determine if a product is registered for sale or use in your area. Enlist Duo and Enlist One are the only 2,4-D products authorized for use with Enlist crops. Consult Enlist herbicide labels for weed species controlled. Always read and follow label directions.
